As Teksan Generator, with our experience of a quarter century and strong engineering know how, we add strength and value to the retail sector with our cogeneration-trigeneration solutions and our hybrid systems, and diesel and gas generator sets with international quality certificates used by engine and alternator brands that are known worldwide for their quality and performance and which operate with high performance under the toughest conditions.

Our company, which has become one of the leading companies in the energy industry not only with its production infrastructure but also with its investments in human resources and R&D, offers uninterrupted power solutions to a number of important projects in more than 130 countries, primarily shopping malls, chain stores and banks; and our expert technical team provides the service and spare parts support fast and effectively.

PROJECT REQUIREMENTS

All energy requirements of ACITY Outlet Center, which was built on a 50.000 square meters area, have been met.

SOLUTION WE HAVE PROVIDED

The natural gas trigeneration system, whose total power is 2 MW, has been meeting nearly 95% of the electrical and thermal energy demands of ACITY Shopping Mall in the winter months and approximately 90% of its power and cooling needs in the summer months for a period of more than 2 years.

PROJECT REQUIREMENTS

The auxiliary power supply required for a 15.000 m² office in addition to 250 stores, 36 restaurants and cafes, hypermarket, 8 movie theaters.

SOLUTION WE HAVE PROVIDED

Synchronized diesel generator sets including 2 sets with a power of 905 kVA and 2 sets with a power of 1130 kVA which have been specially developed for the project and provide auxiliary power.

PROJECT REQUIREMENTS

The need for the establishment of a power room to provide auxiliary power in emergency situations, to meet this need in a short time.

SOLUTION WE HAVE PROVIDED

Designing not only the generator sets but also the room suitable for the project, high quality products conforming to the country regulations have been supplied to the customer with reasonable prices and short delivery terms.

PROJECT REQUIREMENTS

4000 kVA standby generator was required for Dostyk Plaza with a total area of 125.000 m².

SOLUTION WE HAVE PROVIDED

The requirements of this project were met with 2 units of canopied automatic generator sets with 2025 kVA power output per each. In addition, the generator sets were manufactured at special sound levels.

**PROJECT REQUIREMENTS**

The power requirements of the MEGA Silk Way Mall, including a movie theatre, a supermarket, Happyton Entertainment Park with an area of 800 square meters for children and the 400-seater Ice Skating Rink in case of a power outage.

SOLUTION WE HAVE PROVIDED

TEKSAN has provided the solution of 4 automatic generator sets with a rating of 2100 kVA for the project power with a rating of 905 kVA for 2 sets, and 1130 kVA for another 2 sets.
